

## NEW PRODUCT

## RELEASE

### GL1800 Chrome Side Fairing Accents with Mesh Inserts

This is the perfect chrome accent for the side fairing. It completely covers the original painted side fairing accent without removing it or requiring drilling. We have included a chrome mesh insert in this piece which is great for attaching lights to show off the chrome or add extra side lighting at night. For those who do not have chrome radiator grills or need to replace them, this mesh insert is great because there is no need to take the bike apart and the mesh inserts are easier to clean.

79.95

### Signal Magic

Don't get stuck at red lights waiting for the signal to change!! Now you can make the traffic light change on its next turn just like a car with this small magnet. This magnet will not harm on-board electronics. It measures 4 1/8" x 9/16" x 1/2". It is one of the strongest magnets we could use for this purpose. It easily mounts with 3M adhesive tape.
